

KOMPONEN PROPOSAL PENELITIAN

(untuk yang berbahasa Inggris)

No.	Section	Description
1	Project Title	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Select a title that is understandable to those outside your discipline. <input checked="" type="checkbox"/> Use one that indicates what the project is about. <input checked="" type="checkbox"/> Keep it simple and avoid jargon <input checked="" type="checkbox"/> Avoid quotation marks
2	Keywords	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Between 1 and 4 keywords can be used. <input checked="" type="checkbox"/> Try not to use keywords that are too general or can mean more than one thing. <input checked="" type="checkbox"/> Use single words where possible but combinations of words can be used to ensure clarity.
3	Abstract of Proposal	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Indicate (briefly) what is significant about the project and why it is required. <input checked="" type="checkbox"/> It should excite or intrigue the reader. <input checked="" type="checkbox"/> Indicate outcomes and innovation. <input checked="" type="checkbox"/> Mention the gap that your project will fill and why it needs filling.
4	Background	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> This initial section should alert the assessors to the problem that your project will address. <input checked="" type="checkbox"/> Please provide a narrative that establishes the story of the problem and the research that you propose to address this problem. Problems may also be those of theory, methodology or concept. <input checked="" type="checkbox"/> Please demonstrate why the problem must be addressed and how your proposal will address it in a new and successful way. Do not describe what you will do in detail – that should be detailed in fully when describing the methodology and design. <input checked="" type="checkbox"/> As a part of background, please indicate what research has been done so far on the topic you will deal with (literature review) and the position, or the starting point, of your research.
5	Aims/Objectives	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Be realistic and clear in what you aim to investigate or address. <input checked="" type="checkbox"/> When detailing aims be ambitious but do not make exaggerating claims.
6	Significance	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Show why this project is important – what problem does it solve and why must it be solved? <input checked="" type="checkbox"/> What is the research gap – why must it be filled? <input checked="" type="checkbox"/> What are the advantages we could gain if this problem is settled? And what are disadvantages we would have if this problem is left unsolved? <input checked="" type="checkbox"/> How does this problem relate to the broader discipline area? How does the research resonate within the broader discipline area?

No.	Section	Description
7	Literature Review	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Describe the results of previous studies, and it's relation to the topic or research questions. <input checked="" type="checkbox"/> Explain the results of previous research and the limitations of the study <input checked="" type="checkbox"/> Identify the limitations of previous studies, and what you will accomplish with these limitations
8	Methodology and Design	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> This section must validate your aims or objectives by showing the process through which these objectives will be achieved. Provide details how the research project will proceed. This indicates that you have carefully thought out your plans of conducting fieldwork, methods of data collection and analysis. <input checked="" type="checkbox"/> Provide theoretical framework that will be applied for the proposed project, why and to what extent to such particular framework is relevant to explain and solve the problem raised in this project. <input checked="" type="checkbox"/> Include, where appropriate, details of the experimental design at least for an initial project or projects in the area of research, and statistical methods to be used. Include sample size estimations. <input checked="" type="checkbox"/> Incorporate activities in the design of the project and dissemination of results such as policy documents, stakeholder meetings and seminars, the inclusion of collaborating or partner organizations or expertise. <input checked="" type="checkbox"/> Provide timeline of the project and evidence that the proposed study can proceed in a timely fashion (i.e. recruitment of participants is assured, instruments have been developed and piloted)
9	Innovation	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> Demonstrate how the proposed project is innovative. Claims to innovation cannot be made unless they are backed-up with evidence. <input checked="" type="checkbox"/> Describe how the project is innovative conceptually, methodologically or technologically. <input checked="" type="checkbox"/> What is new about the outcomes, approach or subject of the proposed project?
10	Benefit or Contribution	<ul style="list-style-type: none"> <input checked="" type="checkbox"/> These could be economic, cultural or social. The main impact may be felt by one section of the community or more widely. They may be of a cultural shift or new way of thinking rather than a concrete measurable outcome. <input checked="" type="checkbox"/> Discuss benefits to the discipline – is there a pending research question or issue within the discipline that this proposal will address or answer? <input checked="" type="checkbox"/> How do benefits to the discipline resonate beyond the particular discipline area it self? For example, what methodology from this research may be transferrable? <input checked="" type="checkbox"/> There is an increasing focus on the internationalisation of UIN research – what will this project do for the international reputation of UIN? <input checked="" type="checkbox"/> How will you inform policy makers and other stakeholders? Publishing in academic journals or disseminating your results through academic conferences will not translate to policy impact. <input checked="" type="checkbox"/> Make sure the other aspects of proposal support

No.	Section	Description
		your claims of benefit. If you claim influence of policy or practice as a benefit, make sure your research design and communication of results reflect how you will achieve this.
11	Communication of Results	<input checked="" type="checkbox"/> Please indicate all the ways your research findings or activities will be disseminated. <input checked="" type="checkbox"/> Include the names of international journals and international conferences you will target and, the case of monographs, any potential publishers. <input checked="" type="checkbox"/> If you are communicating your results via websites that offer new ways of engagement be sure this is included when you discuss innovation in the 'Innovation' section.
12	References	References should be provided within the application form (maximum 3 pages). Do not attach copies of any references.
13	Attachment 1. Curriculum Vitae 2. Budget 3. Copy of SK 4. Copy of NPWP 5. Copy of BNI Account	All annexes, such as, CV, budget, etc., are bundled separately with the proposal

**STRUKTUR/OUTLINE
PROPOSAL PENELITIAN
(untuk yang berbahasa Inggris)**

**COVER
ABSTRACT
TABLE OF CONTENTS**

Page:

PROPOSAL

- A. Background
- B. Aims (Objectives)
- C. Significans
- D. Literature Review
- E. Hypotesis (if any)
- F. Methodology and Research Design
- G. Innovation
- H. Benefit (Contribution)
- I. Communication of Results
- J. Timeline
